

Snowman directions

My snowman has two blue balls right on top of each other for the body the second ball up has a black skull in the middle of it. He has a blue ball outlined in white for the head. He has two hands with three fingers and a black ball in one hand.

He is standing on a big patch of snow at the bottom of the screen that goes all the way from one side of the screen to the other side. Up in the top right of the screen there is a small airplane. That is what my snowman looks like.
